Front End Web Development

General Assembly 2014

WORK EXPERIENCE

Jun 2016 - Present: Engineering Consultant

Deloitte Digital, Washington D.C.

Responsibilities

Serve as engineering consultant, often in leadership roles, on front end projects. Manage junior developers, collaborate with Design and QA teams, communicate with project managers, and report to client during project life-cycles and sprints. Operate in an agile environment with a keen eye for accessibility, responsive and mobile web development, and providing concise documentation.

Oct 2015 - Present: Teacher and Teaching Assistant

General Assembly, Washington D.C.

Responsibilities

Develop, prepare, and teach various evening classes including 'Talk Like a Programmer', 'Intro to SCSS', and 'Intro to Programming' and 'Front End Web Development'. Lead Office Hours for students, helping with homework, personal projects, and de-bugging. Serve as a member of the JavaScript Guild.

Jan 2015 - May 2016: Associate Web Developer

RepEquity, Washington D.C.

Responsibilities

Developed Drupal themes using clean and concise code up to current industry standards. Assisted in maintaining and updating company code base. Helped develop a political advocacy platform with Drupal and Angular.js. Worked closely with design and UX/UI and back end teams. Utilized version control, style guides, and best practices in a team development environment.

May 06 - Jun 14: Communications and Digital Media Coordinator

American Friends of the Alexander von Humboldt Foundation, Washington DC

Responsibilities

Oversaw the promotion of fellowships of the Alexander von Humboldt Foundation including management of all print and digital advertising and coordination of all online platforms (social media, website, blog) for North America. Finalized and launched a redesigned AFAvH website and managed analytics tracking. Developed and maintained the AFAvH blog on Globalization of Research; Science, Society and Policy; and Transatlantic Research and Professional Cooperation.
